P12. Chamber of Commerce and Industry Durrës (AL)

P13. Lezhe Chamber of Commerce and Industry, Lezhe (AL)

P14. Konfindustria Shqiptare. Tirana (AL)

ELISAA addresses the priority “Agriculture” because it performs the cooperation between universities and agricultural industry, through technological knowledge transfer by a new e-Learning approach.

The idea is to help the agriculture sector to explore new business opportunities and prevent its decline trends.

Specific objectives of the project:

To establish cooperation between EU Universities, Albanian higher education and enterprises in order to adapt vocational training and research to the actual needs of the agriculture and agro-industry sectors, focusing on no-food uses of biomass through an e-learning platform; To enhance new strategy and policy towards no-food uses of biomass, in particular in the bio-fuel generation.
